The company uses corn to produce its various products. Hungrana makes natural products exclusively by natural means, using the most modern technologies and renewable energy, without waste. We believe that sustainable development can only be achieved in harmony with our environment, laying great emphasis on our responsibility towards society.  As the most significant corn processing company in Europe, Hungrana Starch and Isosugar Manufacturing and Trading Co. Ltd. has been a definitive player in the Hungarian food industry for more than 100 years. Consumers use the sugar and starch assortments, alcohol and fodder commodities produced here every day. Environmental responsibility is of high priority for Hungrana Ltd., an excellent example of which is the bioethanol fuel produced from renewable energy sources and sold under the name GreenPower E85.
